SKY SERVICES

Here's how you save:

No Payroll or Benefits Obligation

DesOur professionals work under service contracts. You avoid the high costs of full-time employees, including health insurance, 401(k), PTO, and other benefits.

Lower Hourly Rates — Same Level of Expertise

In Colombia, professionals earn competitive local salaries — but those rates are significantly lower than the U.S. market. You get university-educated talent for 50–70% less.

No Overhead Costs

Forget about office space, equipment, taxes, or HR management. We provide ready-to-work professionals who operate remotely with their own tools and infrastructure.

Faster Hiring, Higher Productivity

We reduce hiring time and administrative effort. Our pre-vetted talent integrates into your systems within 48 hours, helping you move faster with fewer internal resources.

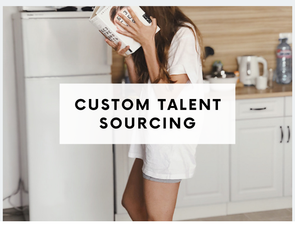
Our Services



Virtual Executive Assistance

We provide highly organized bilingual assistants who can manage your daily workflow with professionalism and discretion. From calendar coordination and email handling to preparing reports and scheduling travel, our remote executive assistants are trained to support CEOs, managers, and teams across multiple time zones. With experience in U.S. corporate culture, they integrate smoothly into your business without the overhead of an in-house hire.

Customer Support (Multichannel)

Deliver outstanding customer experiences with our remote agents trained in call handling, live chat, email responses, and CRM management. Our team provides warm, timely, and professional support in both English and Spanish. Whether you need coverage during peak hours, after-hours, or across time zones, our scalable solution ensures your clients always feel heard — while you maintain full control over the tone and standards of your brand.

Accounting & Finance Support

Our accounting professionals assist with invoicing, transaction recording, bank reconciliations, accounts payable and receivable, and basic financial analysis. Trained in tools like QuickBooks, Xero, and Excel, they help you maintain accurate records, stay compliant, and manage your cash flow — without the need for an in-house finance team. All work is carried out with strict confidentiality and attention to detail.

Marketing & Content Creation

Whether you need help running digital ad campaigns, designing graphics, or creating SEO-optimized blog content, our marketing specialists are ready to support your goals. We work with platforms like Google Ads, Meta, Canva, Mailchimp, and WordPress to ensure your brand has a consistent and engaging presence online. You'll gain strategic, creative support without hiring an entire agency.

Web Development & IT Support

From website creation to maintenance, our developers and tech assistants specialize in WordPress, Shopify, HTML/CSS, and general troubleshooting. Need help managing hosting, domains, or e-commerce platforms? We provide reliable and cost-effective tech solutions to keep your digital infrastructure running smoothly — without the delays or overhead of local tech support.

Translation & Transcription

Our certified professionals offer high-quality English-Spanish translations for business, legal, medical, and technical documents. We also provide audio and video transcription services, ensuring accurate and timely delivery. All work is proofread and reviewed, ensuring compliance with your brand tone and industry-specific terminology.

Custom Talent Sourcing

If your business needs a role that doesn't fit a standard category, we'll help you find the right person. Our recruitment specialists identify, evaluate, and present qualified professionals that align with your technical, cultural, and logistical needs. We take care of the vetting, onboarding, and setup — you just receive talent that's ready to perform.
